ADDRESSING THE CHALLENGES OF GROSSING DESCRIPTIONS

Tuesday 29 November 2022
9 am & 4 pm CET

Grossing of biospecimens is a key step in the pre-analytical phase with a big impact on the entire process and on the final diagnosis. Traditionally, this step requires notes, drawings and pictures; however grossing descriptions may be subjective and they are often done with multiple tools and without a **standardized approach**.

Join our Live Webinar *"Addressing the challenges of grossing descriptions"* on 29th November 2022 and learn valuable tools for enhanced grossing descriptions. Through live webcams our Application Specialist will discuss the **challenges of the grossing step** and show innovative solutions to **improve documentation** during dissection.

The discussion will include the following topics:

- Reports and Documentation
- Digital Pathology
- Specimen Traceability

November 2022
29

Two time session:

hrs 9.00 am CET

hrs 4.00 pm CET

Estimated duration: 45 min

Join our Live Webinar on 29th November

Reserve your seat by registering to your preferred time session

**Register for
9.00 am CET**

**Register for
4.00 pm CET**

This date or time do not fit your agenda? No problem! The recording will be sent out to all registrants after the event.

Looking forward to your participation!
