TRACEABILITY IN PATHOLOGY LABS: ENSURING SPECIMEN SAFETY AND WORKFLOW EFFICIENCY

WEDNESDAY 2 OCTOBER 2024
9 AM | 4 PM CEST

MILESTONE
H E L P I N G
P A T I E N T S

Error-free traceability is crucial in order to **ensure specimen safety and optimize operations** in each pathology lab. For accurate diagnoses, it is essential to properly track the biospecimen's data throughout all its journey, starting from collection till the final analysis. Unfortunately, many laboratories face challenges, as some steps are not adequately monitored or traceability is manually handled, increasing the risks of data loss, mismatches or errors.

Mark your calendars for **October 2nd** and join our **Live Webinar** where we share effective solutions to enhance traceability.

Through interactive demonstrations, we will showcase how **automated tracking systems** can secure complete and reliable traceability, thereby boosting laboratory efficiency and ensuring data integrity.

What you will learn:

- Collect **comprehensive documentation** at the accessioning step.
- Remove manual scanning of cassettes and **save significant operator time**.
- Secure **accurate tracking** of all the basket's cassettes in a single click.

October
2nd

Two time sessions:

9.00 am CEST

4.00 pm CEST

Estimated duration:

45 min

Join our Live Webinar on Wednesday, 2nd October, 2024

Reserve your seat by registering to your preferred time session
